

Electricity and Sound

Draw and label everything in your kitchen that uses electricity.

Make your own musical instrument

Go on a sound walk – how many different sounds can you hear?

Create your own ear muffs for muffling sound

Wild Card ...
THINK OF YOUR OWN ...

Wild

Design an electricity safety poster

Fill glasses with different amounts of water and move your finger around the top edge – do you hear anything?

Could you live a day without electricity?
Explain WHY.

Predict how sounds are made and then research.
Were you correct?
